e-FLIP PROJECT

Blendspace

What is Blendspace?

Blendspace is a digital learning platform for teachers to access various resources and forge bundled and interactive lessons.

blendspace

Why Blendspace?

- More than 65% of students are visual learners.
- More than 95% of your students watch YouTube regularly.
- Videos and digital resources are powerful tools

Why use Blendspace

- Easy creation and collection of web resources
- Integration of online content (such as videos, images, etc.) with a single link
- Tracking of student progress
- Personalization in student learning in real-time through “classes”

Why use Blendspace

- Easy accessibility of content, anywhere and anytime with an internet connection
- A better way to communicate and collaborate with the students
- To have a positive impression on the classroom

Why use Blendspace

- Differentiated lessons with different online materials and built-in assessment,
- Easy display and view, and
- Easy sharing and collaboration.

Simple editing tools

Power of videos

Dazzling student data

EDpuzzle

!

With Edpuzzle, students can only watch the video lessons assigned by the teacher. In other words, the teacher will be the one filtering the content from YouTube so that students can only view educatio content.

EDpuzzle

EDpuzzle

Teachers embed their own questions in the video, and students will receive immediate feedback so they can see if they've understood the content or not.

EDpuzzle

EDpuzzle pros

+ Students take actively part in their **learning process**.
+ They become **responsible** for their learning and acquire **autonomy.**
+ Teachers can track watch time and answers.
+ Great for the Flipped Classroom.

How to use Edpuzzle

- Find a video
- Add questions
- Assign it to your class

EDpuzzle Editing Tools

- Cut
- Voiceover
- Questions (multiple-choice, open-ended, note)
