- + Q&A
- + Multiple Choice
- + Ranking, Scales

Word Cloud and Open ended

- + Brainstorming
- + Diagnostic Assessment
- + Feedback

What are your best tips for presenting with Mentimeter?

Mentimeter

Use animated gifs to grab attention

Keep the texts short

understand what the audience are wonder about (or seeking info about)

Stop for questions

Use Menti to do a mixed icebreaker and expectation mgmt question. Creates both a laugh and you know how to tweak your message.

Add a lot of Gifs. Makes it look fun :-)

The shortcuts are really adding a dimension to a seamless experience!

Don't get nervous if it takes a while before the votes come in - it means that the audience is thinking through

Start with an easy question to get everyone going

Mentimeter

Teachers can add a quiz slide:

- + Select answer
- + Type answer
