LÁTUM DRAUMANA RÆTAST

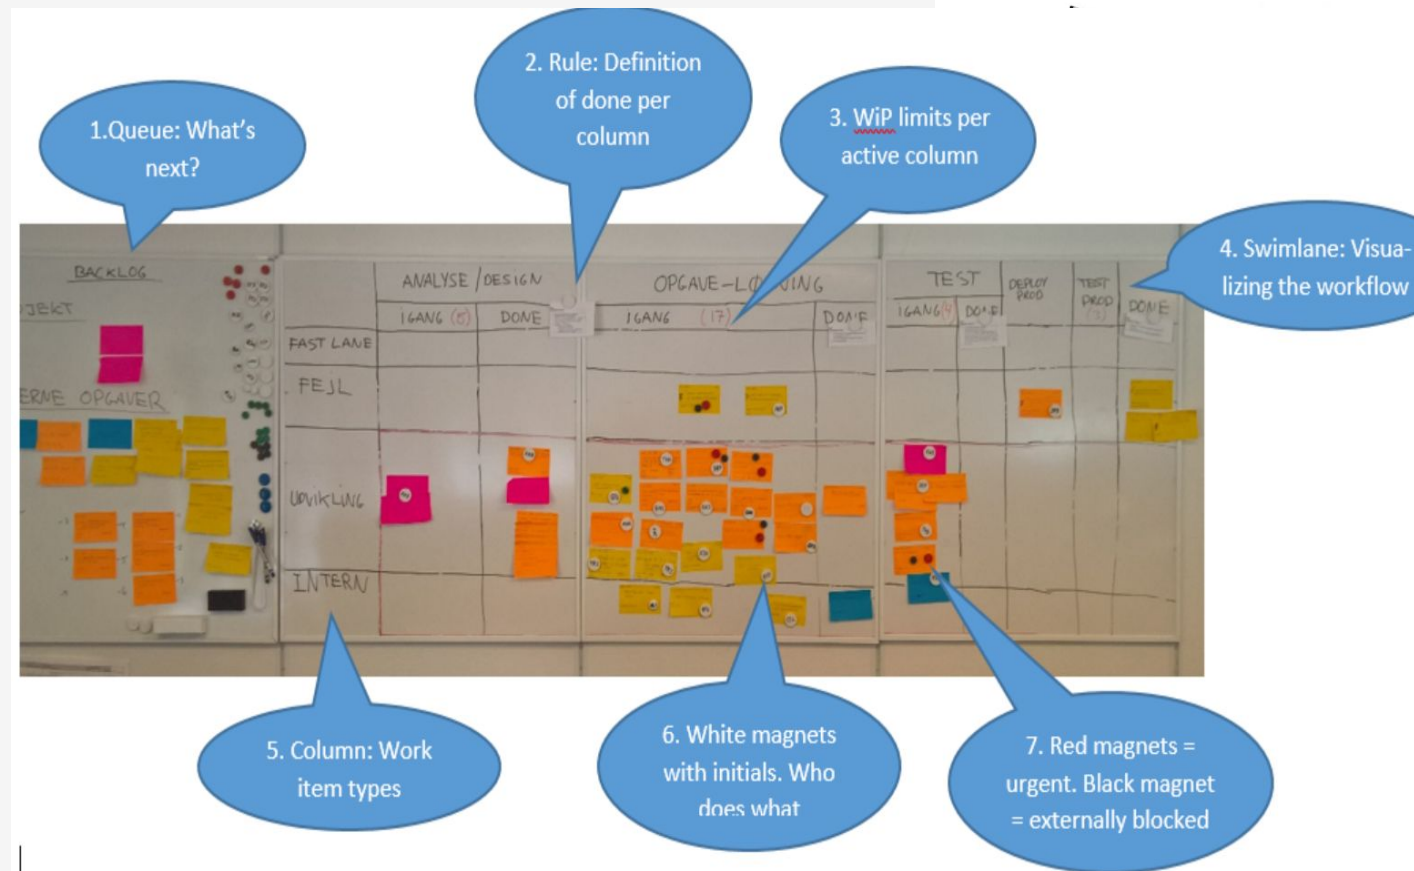

What is Trello?

- [Trello](#) is a collaborative work management app designed to:
 - track team projects,
 - highlight tasks underway,
 - show who they are assigned to, and
 - detail progress towards completion

What is Trello?

- At its core, Trello relies on the principles of **Kanban project boards** to visualize workflows, providing managers and team members with a simple overview of a project from start to finish
- Trello's key components are **boards, lists, and cards**

How Much Does Trello Cost?

Trello offers four tiers:

1. **Free, Standard, Premium, and Enterprise \$ 0.** The **free tier** requires users to sign up, and provides access to unlimited power-up integrations, unlimited storage (up to 10MB per file), Can have access to 10 boards (web pages) at the same time.
2. **Standard tier - (\$5 per user each month)** adds advanced checklists and custom fields, additional Butler automations, and higher file size storage (up to 250MB per file).
3. **The Premium option – (\$10 per month)** – has unlimited Butler automations, added dashboard, timeline and calendar views, and admin and security tools.
4. **The top-tier Enterprise plan (starts at \$17.50 per user a month)** includes further security measures designed for deployments at large businesses. These measures include organization-wide permissions, mobile device management integration, and other admin-focused capabilities. The Enterprise version offers a range of pricing plans, depending on the number of users.

Getting started with Trello

- First you create boards that focus on an over-arching project or process-based tasks.
- Within each board, several lists can be created to indicate the progress of a project;
 - “to do,” “in progress,” and “done” lists are common examples.
 - Individual cards within the lists hold information on a specific task and can be moved from list to list as needed (such as when a task is completed).
- Easy to use across devices, but works best on larger screens

Try it

1. <https://trello.com/> create an account
2. Make sure you are [logged in](#).
3. Create a board
 - Add a list to the board
 - Add a card to the list
 - Try adding a checklist to the card
 - Change the cover

Possibilities of Trello in education

- Project based learning
- Assignment tool
- Student interaction
- Digital/visual syllabus
- Course structure
- To Do, Doing, Done - list
- Today, This Week, This Month
- Lesson plan
- Collaborating with others
- Lists for different content type or categories
- Labels
- Managing resources
- And more...
