

Cacoo

Co-funded by
the European Union

What is Cacoo?

Cacoo is a collaborative instruction and presentation tool for the classroom.

Why Cacoo?

- + With Cacoo you can easily create and edit diagrams.
- + With Cacoo you can use templates, add and edit shapes, add text and create lines that connect the shapes.

Sharing a Diagram

- + You can export your diagrams as PNG, SVG, PDF, PS, PPT format or print them.
- + You can share diagrams with a link, as an image or embedding them.
- + You can present diagrams full screen using the Presentation mode.

Cacoo

Cacoo is very intuitive to use.

Click, double click, drag and drop.

Cacoo

On Cacoo you can use templates (and choose from more than 100) or create your diagram from scratch.

Cacoo pros

- + Very useful for visual learners.
- + Plenty of different available templates.
- + Great for brainstorming, creating mind maps etc.
- + Very easy to use.
- + Used also in business.

Cacoo cons

- + Cacoo is a Freemium programm. With the free account, you can only create 6 diagrams and export them in the PNG format.
- + Premium version costs 5\$/user/month.

How to use Cacao

- + Log into your Cacao workspace
- + Click on Create Diagram
- + Choose from a Template
- + Edit the Diagram
- + Export, share or print it
