

Popplet

Mind Maps Made Easy

Co-funded by
the European Union

What is Popplet?

It is a tool with which anyone can easily create mind maps.

For Education

Helps students learn visually and creatively.

For Work

A simple, flexible and scalable solution to work on and share your ideas.

What is a mind map?

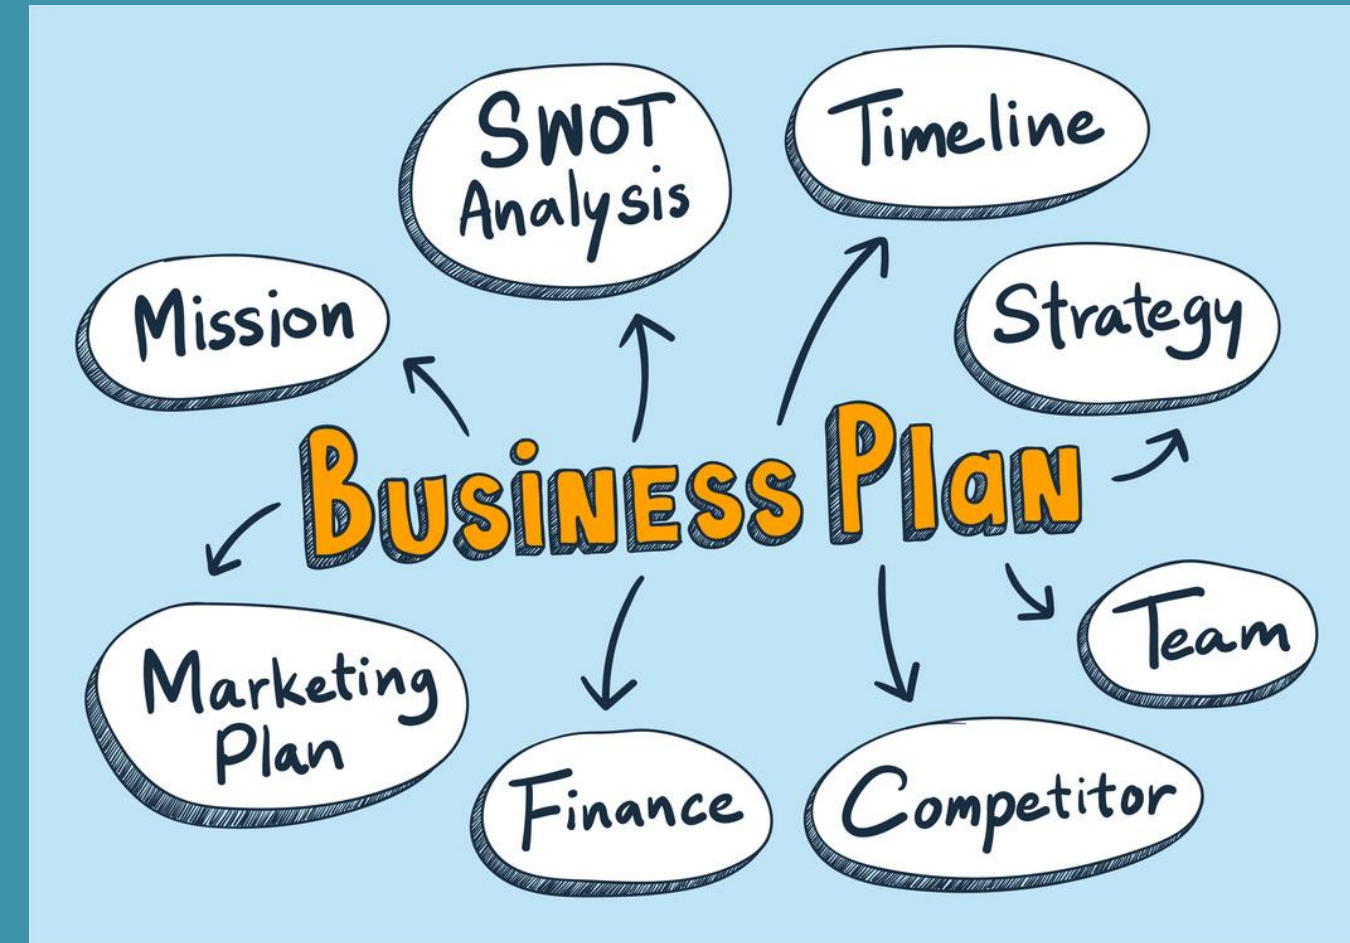

A useful organisational technique

It is a more interesting way of brainstorming

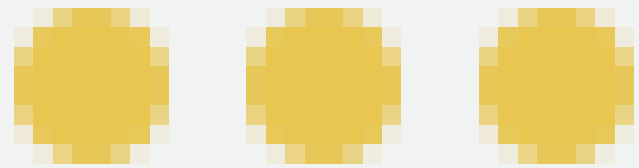

A visual diagram

It is used to visually arrange information in a hierarchy and to show the relationships between the parts of the whole
