

Application: **Flippity**

Class: IV.AO

Major / Field of study: Business Academy

Subject: CVU – cvičenia z účtovníctva (Accountancy Practices)

Topic of the lesson: Financial Analysis - Revision

Language: Slovak

Teacher: Ing. Adriana Uhláriková

Within this lesson, students were discussing the issues regarding the previously assigned material to study (PRE phase of the e-FLIP Model) meaning home study before the lesson. After that, they started to revise the knowledge, skills and decision-making by the use of Flippity online app. The teacher prepared the series of quiz questions and students were selecting the individual tasks to solve by picking the value of the question (100 € - 500 €). Such a gamification contributed to increased activity at the lesson and more flexible and entertaining learning.
