

Application: **Kahoot, Mentimeter and Padlet**

Class: II.AC

Major / Field of study: Management of Regional Tourism

Subject: EKA – ekonomika (Economy)

Topic of the lesson: Banking System in Slovakia

Language: Slovak

Teacher: Ing. Michaela Kanková

At the very beginning of the lesson, students reviewed the last topic by practicing and answering the survey / series of questions using the Kahoot app. This regarded the topic of the Banking System in Slovakia. Students came prepared for the lesson by reviewing the knowledge from an external lecture before the lesson. This activity was assessed by a mark. They used Mentimeter in order to express their opinion about the external lecture referring to the topic. Next, they discussed on the topic' matter. Students provided their opinions by supporting arguments. They used Padlet for analysing and writing the features of the loans, banks, etc. All the students were involved directly in this lesson by using their mobile phones to create the individual contributions into the Padlet form. Then they all reported their work for the others. At the end of this lesson, students answered a short quiz related to the topic.
