

## ***Facilitating e-Learning for an Inclusive Pedagogy***

2021-1-SK01-KA220-VET-000034712

***e-FLIP – TPM 4***

### ***Impressions of the e-FLIP project***

**Gaziantep University, Pedagogic Faculty**

“In the recent years technology is a part of our lives, it was very enjoyable to see and experience such useful projects on behalf of our country and our city. Thank you for the efforts made for quality education and as an educator, we will be looking forward to new projects.”

Figen Polat  
Vice Principal  
Bahçeşehir College / Türkiye

“I think the e-FLIP digital platform is a platform that every teacher who wants to add innovation to their classroom, make their students subjects and ensure the permanence of learning can benefit from.”

Hatice Adıyaman  
School Director  
SANKO Private Schools' / Türkiye

The e-FLIP project has been an effective digital project that gathers dozens of digital applications together in digital platform, tries to make the participants comprehend the essence of the work and gives feedback to the participants with small tests at the end of the trainings.

Yüksel Dıblan  
Preschool Teacher/Assistant Director  
Yeşiloba Kindergarten/ Türkiye

Thanks to the e-Flip project, I had the opportunity to get to know and learn Web 2.0 tools better. As a math teacher, I started to actively use Web 2.0 tools in my lessons. Since it made the lessons fun and permanent, it caused me to get very good feedback from the students. Thanks to everyone who contributed.

Büşra Ecem Aslan  
Math Teacher/ Türkiye

After taking this training, I started to use more Web 2 tools in my lessons, which made more students participate and the lessons became more fun.'

Mustafa Kemal ARAYCI  
English Teacher  
Saim Akınal Anatolian High School

It is a platform that will always take educators one step further in terms of vision and is very successful in creating their own digital content.

Gülistan Koç  
Vice Principle  
Deva Schools/ Turkiye

First of all, the platform is very comfortable and easy to use. Previously, I was trying to learn about Web2 tools by searching for information separately or watching videos from youtube channels. With the e-FLIP Digital Platform, I can access both Web2 tools and information and videos from a reliable source without wasting time. In this respect, I think the e-FLIP Digital Platform is a very efficient platform.

Zeynep Eşki  
Math Teacher  
Osmaniye Şirinevler Imam Hatip Secondary School/ Turkiye

I think e-FLIP Project has outputs that technology has brought to our education life. The e-FLIP Project responds to teacher needs in the context of 21<sup>st</sup> century teaching skills. Thank you for your efforts.

Cevahir Duman  
Social Sciences Teacher  
SANKO Private Schools/ Turkiye

Thanks to this platform, I am very lucky to have the opportunity to learn many tools on the platform with the content shared about their use as well as getting to know many WEB 2 tools. It has been a nice user-friendly platform that I share with teachers candidates as an example to improve their teaching within the scope of many courses. Thanks to the efforts of our esteemed professors who brought us together with this platform.

Asst. Prof. Dr. Gülay Ağaç  
Gaziantep Education Faculty  
Gaziantep University/ Turkiye
